Congratulations to 100th anniversary of MGSU

Dear Professor Akimov,

first of all I would like to congratulate you on the 100th anniversary of Moscow State University of Civil Engineering. You can be very proud of this long tradition and I'm pleased about your invitation to the celebration ceremony on November 22nd. Unfortunately, I can not attend the ceremony.

It is an honor for our university to cooperate with you in the field of engineering. We are enjoying working on projects with you, what contributes to a positive international learning environment for both sides and our students. We are also looking forward to our common Webinar taking place in the end of November.

I am wishing you a successful celebration ceremony and hoping to be able catch up my visit with you as soon as possible.

Yours,

Prof. Dr. Carsten Diener
