Dear Professor Akimov,
Dear Professor Galishnikova,

Thank you very much for the invite to the celebration ceremony upon the 100th anniversary of Moscow State University of Civil Engineering. We are very honored.

We offer our heartfelt congratulations on the 100th anniversary and very much regret that due to the current COVID restrictions we will not be able to join the celebrations in person.

We are looking back to ten years of fruitful cooperation that got initiated by Prof. Hartenstein (Mechatronics) in 2011 and financially supported by subsequent DAAD funding within the framework of the project "DAAD Eastern Partnerships". Currently, the cooperation is being maintained and continuously expanded by Prof. Hristov (Civil Engineering) and Prof. Heiler (Mechanical Engineering). Within the framework of the cooperation, numerous student projects were carried out and the cooperation enabled participation in several scientific conferences. Currently, a first cooperative doctorate is being supervised.

To celebrate your anniversary, we take the liberty of looking back on our cooperation:
