

Erokhin Sergey Vladimirovich

Application of fractal properties in studies of financial markets. International Scientific Conference SPbWOSCE-2018 «Business Technologies for Sustainable Urban Development» (BTSUD-2018)

Supplement of differential equations of fraction order for forecasting of financial markets. International Scientific Conference SPbWOSCE-2018 «Business Technologies for Sustainable Urban Development» (BTSUD-2018)

Modeling of deformation-strength characteristics of polymer concrete using fractional calculus. XXI International Scientific Conference on Advanced in Civil Engineering "Construction - The Formation of Living Environment" (FORM 2018)

On Some Solutions of the Nonhomogeneous Bagley-Torvik Equation. International Journal of Modeling, Simulation, and Scientific Computing.
