

## **Zhukov Alexey Dmitrievich**

Modified gypsum binder;  
Normative legal base for the environmental assessment of building materials:  
Prospects for improvement;  
Insulation systems with the expanded polyethylene application;  
Composite material based on recycled concrete;  
Thermal insulation systems for the Arctic;  
The investigation of expanded polystyrene creep behaviour;  
Basalt fiber and woven materials on its basis;  
The systems of insulation and a methodology for assessing the durability;  
Insulation systems of the building constructions;  
Thermal treatment of the mineral wool mat;  
Thermal insulation: Operational properties and methods of research;  
Insulation systems for buildings and structures based on expanded polyethylene;  
Modeling of the composition of ecologically safe clay-gypsum binders.
