

Berlinov Mikhail Vasil'evich

1. Influence of Kinetics Concrete Hardening on Strength of Constructions. MATEC Web of Conferences (2016)
2. Resistance to the destruction of concrete in constructions of height buildings at dynamic loads. E3S Web of Conference (2018)
3. The integral method of definition of basic tension condition of anisotropic shell. International Journal of Applied Engineering Research (2016)
4. Kinetics of the strength of concrete in constructions. Procedia Engineering. 2016. T.153. C. 292-297.
5. The long term stability of multilayer walling structures // MATEC Web of Conferences Cep. "International Science Conference SPbWOSCE-2016 "SMART City"" 2017. T.106. C. 04006. DOI:
<https://doi.org/10.1051/mateconf/201710604006>
