

Sokova Serafima Dmitrievna

1. Heat-Resistant Corundum Concrete Reinforced with Aluminum Oxide Fibers Synthesized Within a Matrix During Firing. Part 8. Petrographic and X-Radiographic Study of Reinforced Refractory Concrete1 , Refractories and Industrial Ceramics, July 2015, Volume 56, Issue 2, pp 142-143
2. Complex Clinker-Less Binder Made from Refractory Wastes and Products Based on it. Refractories and Industrial Ceramics , November 2016, Volume 57, Issue 4, pp 407-409
3. Reliability assessment of waterproofing systems of buildings underground parts. IOP Conf. Series: Materials Science and Engineering 365 (2018) 052028
doi:10.1088/1757-899X/365/5/052028
4. Innovative technological solutions to ensure the reliability of operated buildings.
